VAISHNAVI SHIVNATH CHAKOR

Software Developer | Java Full Stack Developer

Kalyan, Thane | +91 9137351438 | vaishnavichakor24@gmail.com
LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Engineering undergraduate with a strong foundation in Java and full-stack web development, including Core Java, Object-Oriented Programming (OOP), Collections Framework, SQL, and MySQL. Experienced in building database-driven web applications using Angular, HTML5, and CSS3, with hands-on use of Git, GitHub, and VS Code. Passionate about software development, problem-solving, and building clean, scalable applications.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, SQL
- **Web Technologies:** HTML5, CSS3, Angular
- **Database:** MySQL, Database Normalization (3NF)
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures, Collections Framework, Problem Solving
- **Tools & Platforms:** VS Code, Git, GitHub, SQL*Plus

EDUCATION

Bachelor of Technology in Computer Engineering | 2023 – 2027
Late G. N. Sapkal College of Engineering

Higher Secondary Certificate (HSC) | 2023
Ideal College — 51.50%

Secondary School Certificate (SSC) | 2021
Royal High School — 76%

INTERNSHIP

Data Science / Analytics Intern | 22 December 2025 – 04 February 2026
NewGen Tech Pvt. Ltd. — 45-day internship program

PROJECTS

Student Management System
Technologies: Java, MySQL, SQL

- Developed a Java application to add, update, delete, and search student records.
- Designed a normalized (3NF) MySQL database to maintain data integrity.
- Implemented input validation and exception handling for reliable data processing.
- Wrote optimized SQL queries for fast retrieval of records.

Personal Portfolio Website
Technologies: HTML5, CSS3, JavaScript, Angular

- Built a responsive portfolio website showcasing projects, skills, and contact details.
- Created reusable Angular components for a clean, maintainable structure.
- Ensured a consistent layout across desktop and mobile screens.
- Hosted the source code on GitHub with version control using Git.

To-Do Task Manager
Technologies: Angular, JavaScript, HTML5, CSS3

- Developed a task manager that lets users add, edit, complete, and delete tasks.
- Used Angular data binding and components to update the UI dynamically.
- Added form validation to ensure accurate user input.

CERTIFICATIONS

- Java Programming Masterclass: Beginner to Master
- Python 101 for Data Science
- Certificate of Internship in Data Science / Analytics — NewGen Tech Pvt. Ltd.

ACHIEVEMENTS

- Developed multiple academic projects using Java and web technologies.
- Hands-on experience with database design, normalization, and application development.
- Strong understanding of OOP concepts and software development fundamentals.
